REGIOPLAN

OUR GOAL

The goal is to research people's experiences with civic integration ('inburgering'). This research can help the Ministry of Social Affairs (SZW) to improve rules on civic integration.

WHO WE ARE

Regioplan is an independent research agency: We are not part of the government and we are not part of organisations such as IND, COA or DUO. We do this research as a service to the Ministry of Social Affairs.

Do you want to help with research on civic integration ('inburgering') in The Netherlands?

- Are you an 'inburgeraar': are you busy with integrating?
- Do you want to share your experiences with integrating with us? For example: did you get enough help with learning Dutch and finding a job?
- Help us with this research by filling in a questionnaire! This will take approximately 20 minutes.
- We do not ask you to provide your name. Your answers remain anonymous.
